

The Town of Bridgewater seeks proposals from qualified firms or individuals to provide Resident Engineer Services for the reconstruction of Elm Street, Bridgewater, MA 02324. Resident Engineer services, as described in the request for proposals, will begin approximately October 1, 2019, and may continue for up to 18 months. The Town anticipates that the hours will include normal weekday outdoor construction hours, with schedules changing throughout the course of the project. The clerk must always be present at the site when the contractor is performing work, unless previously agreed with the Owner. The Resident Engineer will report directly to the Town Engineer or the Town Engineer's designee.
